Embracing Debian community
and
Free Software Foundation
(Free Software Directory contributions)
June 2024 Report

QB Networks Masscollabs Services

- From now on QB Networks will be the leading company as security services for Masscollabs Services and it's subprojects like Procyberian Systems Distribution(a Debian GNU/Linux based distribution and software suite), Mass Collaboration Labs, amassivus, godigitalist and bilsege and only QB Networks will be a company but the others are as Free Software communities.

- Please see our latest Code of Conduct

QB Networks
Masscollabs Services

- We embrace The Debian Community and also GNU, Linux, GNOME and other Free Software communities.

- We encourage our members to become FSF members and contribute to
Free Software Directory

- We also want to contribute other Free Software foundations and communities.
